Aquatic Management (Certificate)

Program Description

The Aquatic Management Certificate is a comprehensive certificate designed to prepare students to manage and direct aquatic facilities. Upon completion of the Aquatic Management Certificate, graduates may hold a valuable set of certifications, including Certified Pool Operator (CPO), Water Safety Instruction (WSI), Lifeguard, and Lifeguard Instructor (LGI). This comprehensive approach not only enhances career opportunities in aquatic facility management but also prepares individuals to take on roles as water safety instructors, lifeguards, and lifeguard instructors. Whether aspiring to manage aquatic facilities, teach swimming, or oversee lifeguard teams, this program provides the foundational knowledge and certifications needed for success in various aspects of the recreation industry.

Note: It is recommended that students who need to strengthen their swimming skills take the ESS 161 (Swimming Intermediate) prior to taking the courses that test for certifications.

Program Code

C154

Program Learning Outcomes (PLOs)

1. Acquire the certification to train and certify lifeguard staff for an aquatic facility.
2. Acquire the knowledge needed to operate and maintain a pool including regulatory, mechanically, and chemically.
3. Acquire the certification to use CPR/AED and provide First Aid.
4. Design aquatic programming that meets industry standards.
5. Develop aquatic management skills including budget, personnel, and facility.
6. Develop professional skills to keep staff, the aquatic facility, and patrons safe.

earn:

- grades of C- or higher in required courses
- a minimum certificate program grade point average of 2.0
- Completion of this certificate does not imply or guarantee licensure or certification reciprocity or job attainment in Idaho or any other state or country.

Program Course Requirements

Certificate Core

14

Business Management - Marketing (Major: Bachelor-Level)

Program Description

This bachelor's degree prepares students for a career in marketing, several area digital marketing, digital advertising, and/or professional sales. Marketing courses in this program are focused on building specific skills that will allow students to compete well in a fast moving and constantly changing business field.

Program Code

428

Program Learning Outcomes (PLOs)

1. Demonstrate effective leadership attributes appropriate to the position they hold within a team.
2. Innovate in a business and marketing context.
3. Analyze and draw correct conclusions from datasets using Excel.
4. Persuade a target audience that a particular program or product is the best choice for them.
5. Demonstrate high level of technical competency in one or more areas of marketing.
6. Exhibit levels of initiative necessary for marketing's roles in leading revenue generation.

Program Notes

- Graduation in this program does not imply or guarantee licensure or certification reciprocity or job attainment in Idaho or any other state or country.
- It is recommended that students complete BUS 301 to fulfill their Advanced Writing requirement.

Exercise and Rehabilitation Sciences (Major: Bachelor-Level)

Program Description

The Exercise and Rehabilitation Sciences program focuses on the scientific study of the mechanical and physiological processes involving human movement. The program offers two distinct emphases: Exercise and Wellness, and Movement and Rehabilitation. The former prepares students for diverse careers in the fitness and wellness industry, including roles in gyms, fitness companies, wellness coaching, clinical settings such as cardiac rehabilitation, and nutrition certification. The latter is designed to equip students with the foundational knowledge necessary for advanced studies in physical therapy, occupational therapy, physician assistant programs, and athletic training. Our comprehensive curriculum fosters critical skills such as fitness assessment, exercise prescription, analysis of human movement, recognition of various pathologies, body composition and nutritional management for health and performance, interpretation of technological data to make informed decisions, and professional communication, teamwork, and leadership.

Program Code

482

Program Learning Outcomes (PLOs)

1. Analyze evidence-based data to make informed decisions.
2. Assess physical fitness.
3. Prescribe health and physical fitness activities.
4. Apply nutritional principles for health and performance.
5. Analyze human movement.
6. Describe physiological responses to exercise.

11. Understand basic business principles of organizations within the exercise and rehabilitation field.

Program Notes

- To graduate with a Bachelor's degree, a student must earn:
 - grades of C- or higher in major courses
 - a 2.0 cumulative GPA
 - a minimum of 120 cumulative credits
- Graduation in this program does not imply or guarantee licensure or certification reciprocity or job attainment in Idaho or any other state or country.

BYU-Idaho Academic Catalog

Humanities (Major: Bachelor-Level)

Program Description

The Humanities major is designed in the spirit of the ancient and proven curriculum of the liberal arts. The liberal arts are literally those arts appropriately exercised by a free people for their own sakes: learning that has as its end a well-trained mind, a virtuous character, and a spiritual and intellectual life rich in concepts and symbols. The liberal arts, more than any other curriculum, develop students' abilities to understand, interpret, and evaluate complex texts, to articulate clearly their own thinking, to make effective judgments, and to solve problems.

Furthermore, the Humanities major is designed for students who want a broad liberal education and an excellent preparation for professional schools such as law and medicine, for graduate programs in the humanities and other liberal arts, and for life as parents, citizens, and disciples. Liberal arts students also find their skills very much sought after by businesses. For many centuries the liberal arts have proven their value in preparing people for successful living and working. There are two points of focus in choosing a career: Things or People. A humanities degree is best suited with any career that deals with relationships with people – thus Business, Law, Education, Politics, etc.

Program Code

671

Program Learning Outcomes (PLOs)

1. Demonstrate knowledge of the role of Western traditions and values in shaping our current world.
2. Demonstrate knowledge of the role of Global traditions and values in shaping our current world.
3. Identify creative works within their stylistic, cultural and historical contexts.
4. Distinguish between a variety of art styles.

9. Write a clear thesis statement that is substantive, contestable and specific.
10. Defend a thesis by taking into consideration counterarguments.
11. Analyze creative works using knowledge gained about the elements of the arts.
12. Defend a critical judgment of a creative work.
13. Complete an internship and/or participate in a European Academic Tour.

Program Notes

- To graduate with a Bachelor's degree, a student must earn:
 - grades of C- or higher in major courses
 - a 2.0 cumulative GPA
 - a minimum of 120 cumulative credits
- Graduation in this program does not imply or guarantee licensure or certification reciprocity or job attainment in Idaho or any other state or country.

BYU-Idaho Academic Catalog

International Studies (Minor)

Program Description

This group of courses is designed to encourage focused learning in International Studies, complementary to an integrated standard degree, as an element of an interdisciplinary studies degree or in pursuing an International Studies major. The minor provides students with a basic introduction to the field including beginning level course work in geography, economics, political science, and area studies. The minor provides an avenue to students wishing to maximize the opportunity for linguistic and cultural competence, and if combined with a disciplinary emphasis, would allow them to enter the workforce or prepare them for graduate school in many different disciplines or professions.

Program Code

115

Program Learning Outcomes (PLOs)

1. Demonstrate an understanding of culture in a global and comparative context.
2. Demonstrate transferable researching, writing and critical analysis skills.
3. Demonstrate familiarity with a second language.

Outdoor Recreation Administration (Cluster)

Program Description

The Outdoor Recreation Administration cluster is an immersive experience into the world of outdoor experiences, leadership, and environmental stewardship. Through a blend of theoretical knowledge and practical application, students will develop the competencies necessary to lead and manage outdoor programs effectively. Whether you aspire to own a wilderness expedition organization, work in adventure tourism, manage camps, or promote environmental awareness, this cluster provides a solid foundation.

Program Code

7010

Program Learning Outcomes (PLOs)

1. Develop customized outdoors experiences aligned with organizational and participant needs and goals.
2. Evaluate user satisfaction using a variety of assessment methods.
3. Operate the logistical planning of outdoor experiences, including permits, budget, gear and equipment, and correspondence with participants.
4. Apply environmental stewardship principles and strategies to minimize human impacts in outdoor settings.
5. Manage risk within an outdoor organization.
6. Manage personnel, including hiring, orientation, and training.
7. Demonstrate competence in an employment area available within outdoor recreation.

Total Credits

Personal Training (Cluster)

Program Description

The personal training cluster is a 14-credit curriculum that teaches hands-on skills of assessing a client's physical fitness and programming exercise for a variety of individuals ranging from youth to older adults and the healthy to those with various health conditions. Outcomes include students being able to pass NSCA, ASCM, NASM, ACE, or AFAA certification exams, learning the basic business principles that apply and successfully being able to pass competency exams that assess instructional competency. The fitness industry has excellent options for second income and flexible work hours in communities throughout the United States. Students are strongly encouraged to seek opportunities to volunteer through the Student Activities Program in the wellness center, fitness center and as a teacher of evening classes to gain valuable experience to supplement the classroom activities.

Program Code

7009

Program Learning Outcomes (PLOs)

1. Design and lead group fitness workouts.
2. Appropriately assess individuals for cardiovascular and musculoskeletal risk factors.
3. Design and implement exercise programs appropriate for individuals whose capabilities range from chronic illness to elite fitness levels.
4. Assess their readiness to take a national certification exam and report on their strengths and weaknesses.
5. Design basic nutrition programs that considers nutrient quality and appropriate caloric recommendations.
6. Increase their ability to use technology in their programming or marketing.

Physical Therapist Assistant (Major: Associate-Level)

Program Description

The BYU - Idaho PTA program is an associate of science degree that prepares students to be employed as a physical therapist assistant. The program received accreditation from the Commission on Accreditation in Physical Therapy Education in 2015. Each Fall a new cohort of students is admitted into the program. The application deadline for each year is Monday prior to Spring graduation. The program includes two academic and two clinical education semesters after prerequisites have been met. For prerequisite requirements, the program course schedule and other program information, please visit the PTA program website.

Program Code

368

Program Learning Outcomes (PLOs)

1. Work effectively under the direction and supervision of a Physical Therapist.
2. Develop the necessary skills to function effectively in all integrated clinical education internships.
3. Deliver high quality care within their scope of practice upon graduation.
4. Demonstrate competence and safety in the clinical setting.
5. Display moral/ethical behavior representative of disciple leaders in their professional practice.
6. Think creatively, critically, and communicate effectively in oral and written forms.

- grades of C- or higher in major courses
- a 2.0 cumulative GPA
- a minimum of 60 cumulative credits
- Graduation in this program does not imply or guarantee licensure or certification reciprocity or job attainment in Idaho or any other state or country.

Recreation Management (Major: Bachelor-Level)

Program Description

Recreation Management is a dynamic field that equips individuals to conceive, manage, and lead diverse recreational experiences and venues. In preparation for their professional journey, students select a specialized area aligning with the three primary employment sectors within the field. The specializations within those sectors are:

1. Community Recreation:

- Aquatic Management Certificate: Develop expertise in the supervision and operation of aquatic facilities, ensuring participant safety and enjoyment.
- Inclusive Recreation Cluster: Focus on creating inclusive and accessible recreational experiences for individuals of all abilities and backgrounds.
- Sports Management Cluster: Explore the intersection of community engagement and sports administration, acquiring skills to lead recreational sports programs.
- Program and Event Management Certificate: Master the art of planning, organizing, and executing successful recreational programs and events.

2. Commercial Recreation:

- Commercial Recreation Certificate: Explore the diverse landscape of commercial recreation, including the development and management of recreational enterprises.
- Personal Training Program: Learn the principles of personal fitness training within the context of commercial recreation.

3. Outdoor Recreation:

- Natural Resources: for Recreation Management Majors Cluster: Dive into the management of outdoor spaces, focusing on conservation, environmental education, and sustainable practices.
- Outdoor Program Administration Cluster: Equip yourself with the skills needed for leadership roles in outdoor recreation, adventure tourism, and eco-tourism.

Program Code

2. Implement disciple leadership principles within a variety of recreation settings.
3. Demonstrate sound decision-making skills critical to the delivery of recreation programs.
4. Create leisure programming that models the intentional application of gospel principles within wholesome recreation.
5. Demonstrate professional standards of conduct within the recreation profession.

Program Notes

- To graduate with a Bachelor's degree, a student must earn:
 - grades of C- or higher in major courses
 - a 2.0 cumulative GPA
 - a minimum of 120 cumulative credits
- Graduation in this program does not imply or guarantee licensure or certification reciprocity or job attainment in Idaho or any other state or country.

Sport Management (Cluster)

Program Description

Sport Management is designed for students who have a passion for sports and aspire to hold positions in the sport industry. This cluster will provide students with a unique perspective and understanding of the field. This cluster offers a comprehensive understanding of the field through a wide range of topics including the legal and ethical issues in sport, the business management, the role of sport in society, and the psychological aspects of sport performance and participation. Students will be prepared to take on leadership roles in a variety of sports organizations such as such as community recreation, collegiate athletics, and professional sports teams.

Program Code

6802

Program Learning Outcomes (PLOs)

1. Demonstrate a comprehensive understanding of the core principles and concepts in sport management.
2. Analyze the impact of social, cultural, economic factors of sport management.
3. Apply legal concepts to sport management.
4. Develop the ability to plan, organize, and teach the elements of sport management.
5. Evaluate theories applicable to sport management.
6. Manage personnel, including hiring, orientation, and training.

Total Credits

- Complete all of the following
 - Take the following:
 - [ESS205](#) - Intramurals (2)
 - [ESS330](#) - Fundamentals in Coaching and Sports Psychology (2)
 - [ESS483](#) - Sports Law (3)
 - [RM322](#) - Introduction to Sport Management (3)

TESOL Education (Minor)

Program Description

This minor fulfills the State of Idaho requirements for the English as a New Language (ENL) subject area endorsement. Gain valuable experience in TESOL before embarking on a career in public education where so many students need services in this area. Gain the knowledge necessary to meet the State of Idaho standard on the test of English to Speakers of Other Languages.

Program Code

195

Program Learning Outcomes (PLOs)

1. Analyze second language acquisition theory, foundations of ESL programs, and the legal underpinnings of ESL/Bilingual education.
2. Leverage their understanding of language acquisition to inform their language teaching methodology and curriculum design.
3. Identify English Learners and assess their language proficiency.
4. Survey an array of cultural paradigms and how they influence language learning contexts.
5. Compare linguistic structures of English and a second language
6. Demonstrate proficiency in a modern language other than English

Program Course Requirements

TESOL (Certificate)

Program Description

A group of courses designed to prepare students to Teach English to Speakers of Other Languages (TESOL). Students will understand the fundamental principles of second language acquisition. They will also learn language teaching approaches and methods and practice teaching the four skills (listening, speaking, reading, and writing) as well as grammar and vocabulary. Other topics covered include linguistics, classroom management, curriculum design, and culture. The TESOL Certificate qualifies students to teach the English language in most international contexts and for private domestic organizations. By itself, the TESOL Certificate does not qualify one to teach full-time in US public schools.

Program Code

C109

Program Learning Outcomes (PLOs)

1. Demonstrate command of the English language in the areas of linguistics, sociolinguistics, strategy, and discourse.
2. Evaluate, design, and utilize curricula and materials for an envisioned EFL/ESL environment.
3. Competently employ research-based language pedagogy to teach diverse English-learner populations.
4. Competently employ appropriate technology to teach diverse English-learner populations.

Program Notes

- Completion of this certificate does not imply or guarantee licensure or certification reciprocity or job attainment in Idaho or any other state or country.

Program Course Requirements

Therapeutic Recreation (Major: Bachelor-Level)

Program Description

A Bachelor of Science in Therapeutic Recreation offers a comprehensive educational pathway, equipping individuals with the skills and knowledge needed for impactful careers in various healthcare and recreational settings. Graduates of this program gain the expertise to excel in roles such as recreation therapists, therapeutic recreation specialists, activity directors, and coordinators within diverse facilities including long-term care centers, recreation centers, after-school programs, daycares, assisted living centers, retirement homes, and respite care services. Coursework is designed to immerse students in the intricacies of working with diverse populations, emphasizing inclusion, program planning, and evidence-based practices.

Throughout the program, students will acquire the proficiency to create and implement evidence-based program plans tailored to individual and collective needs across diverse populations. Key components include learning how to assess and evaluate, develop treatment plans, perform administrative duties, and effectively manage both patients and programs. The curriculum places a strong emphasis on evidence-based practices, ensuring that graduates are well-prepared to contribute meaningfully to the field of therapeutic recreation.

Upon completion of the program, students are required to sit for the national exam to certify as a recreational therapist, a crucial step in establishing professional credentials. This program is designed to foster a deep understanding of therapeutic recreation, preparing graduates to make a positive impact on the well-being of individuals and communities.

Program Code

612

Program Learning Outcomes (PLOs)

1. Formulate the assessment process.

6. Document incidents of risk management.
7. Develop administrative documentation.
8. Construct the policies related to personnel.
9. Model disciple leadership in professional relationships.
10. Appraise professional competency.
11. Practice therapeutic process within multiple populations and settings.

Program Notes

- To graduate with a Bachelor's degree, a student must earn:
 - grades of C- or higher in major courses
 - a 2.0 cumulative GPA
 - a minimum of 120 cumulative credits
- Graduation in this program does not imply or guarantee licensure or certification reciprocity or job attainment in Idaho or any other state or country.
